

Workload Name: 10000

Pool: Host #1

Storage System: FlashSystem 7300 #1

Pool #1

Effective Capacity: 511.14 TB

Workload Source: Manually Entered

Effective Pool Capacity Used: 17.6B  
 Plus: Recommended: 704.47 TB, Available: 525.44 TB  
 3.18% more work can be supported for all pool capacity than is currently used.

Volume Allocation: Fully Allocated

Registration: None

Definição do workload: 160.000 IOPS, block size de 16kb, 70% de leitura (a ferramenta calcula automaticamente 30% de escrita), cache hit de 50%

Read I/O Percentage (%)	70
Total I/O Rate (ops/s)	160000
Read Transfer Size (KB/block)	16
Write Transfer Size (KB/block)	16
Cache Read Hit (%)	50

Easy Test Show: Factor: Intermediate 0.0
